## *commercial* CUSTOMERS AND FRIENDS

Last year was our first annual Ladies of the Beartooth's Female Sale. We were humbled that evening with a full banquet room of respected breeders. We sincerely thank you for the great interest shown in the programs represented. Again, we invite you to attend!

The cows we have selected are bred by ranchers, and their progeny are used by ranchers. These cows really fit together. They are not trend chasers, they are balanced and dependable. True to the basics with phenotype!

**Longevity matters**, cows need to last. As Angus breeders we need to pay attention to that. We live and run our cattle in the harsh northwest, and in Montana, they need to be working cows first and foremost. Cows need to last.

**Maternal is a look and a promise.** A cow has to have it. Our cattle can back up the pretty pictures! Structural integrity from the ground up. Feet, legs, and a wide base. We continually select for good udders, attractive looking, nice headed cattle. Strong maternal based cows raise big calves. We value the commercial cattlemen, and they come to our Bull Sale to buy sons and sire groups raised by these kind of cows.

Fall is a busy and exciting time of the year! If you are in the beautiful area of Southern Montana, please stop by and see the cattle on display!

There are lots of opportunities in this business. One of the very best of those is being able to see cattle bred by the progressive breeders around the country, from calves to working females to bulls in the studs.

The partners of this sale are Cattlemen. They build on the basics of good cattle and practicality in the breed, and they do not sacrifice phenotype. These cattle are working cows with look!

- I think this picture says it all. She's got the look of a cow. ABSOLUTELY the rancher's kind!
- She is deep sided, easy fleshing, with an expansive rib shape. She is square, wide based and sound on the move.
- There is a lot of heifer to appreciate right here, and a lot of future in one like this. LD Capitalist 316 is working and this is your chance to own some of our freshest genetics out of a first calf heifer!
- She shows promise.

- HC Full sister to lot 34! You choose which one is the best because we can't!
- HC After careful consideration I finally let Jeremy talk me into selling another Cowboy Up x 032 heifer calf. Cowboy Up females are looking great throughout the country.
- HC There is no way you can go wrong. As consistent in quality as these two heifer mates are is a great example of how outstanding the combination of this pedigree is. The 032 donor simply does not miss, she is a cash cow and true breeding piece.
- HC 109F is powerful, clean fronted and made just right. You will like her as a calf and love her as a cow!

☞ We continue to like what PF Broadview 5009 is doing for us. We are really impressed with both bull and heifers calves. They are made with the right size and shape. We continue to breed him to our replacement heifers. Check out the capacity and width on this heifer. She is going to be an awesome cow. 75F is out of a first calf heifer.

Style! Style, yes, but also substance. Many times you will get one or the other, and when you get both, it is a foundation type female. We love her.

F34 is a maternal sister to the Lot 12 cow and a ET daughter of SH Forever Lady 0337. The combination of 0337 and Brooking Bank Note will put a lot of look into a heifer. This one is a very good example.

This heifer caught my eye every time I saw her! Beautiful headed with great extension. Her pedigree is rock solid, and so is her kind. She is the real deal. Very feminine and still carries the dimension and rib that is so important. She will become your favorite cow.

Her dam has raised some of the top bulls for Coleman Angus and is just starting to leave her imprint at Pine Coulee Angus.
